Current law requires that each regional transportation plan also include a sustainable communities strategy prepared by each metropolitan planning organization in order to, among other things, achieve certain targets established by the State Air Resources Board for the reduction of greenhouse gas emissions from automobiles and light trucks in the region for 2020 and 2035, respectively. This bill would require the state board, after January 1, 2024, and not later than September 30, 2026, to establish additional targets for 2035 and 2045, respectively, as specified.

The Transportation Agency is under the supervision of the Secretary of Transportation, who has the power of general supervision over each department within the agency. The secretary, among other duties, is charged with developing and reporting to the Governor on legislative, budgetary, and administrative programs to accomplish coordinated planning and policy formulation in matters of public interest, including transportation projects. On and after January 1, 2025, and to the extent applicable, feasible, and cost effective, this bill would require the agency, the Department of Transportation, and the California Transportation Commission to incorporate specified goals into program funding guidelines and processes.

Current law prescribes various requirements to be satisfied before the exercise of a power of sale under a mortgage or deed of trust and prescribes a procedure for the exercise of that power. This bill would prohibit a person from contacting, soliciting, or initiating communication with an owner to claim the surplus funds from a foreclosure sale of the owner's residence before 90 days after the trustee's deed has been required.

Current law authorizes a regional transportation agency, in cooperation with the Department of Transportation, to apply to the California Transportation Commission to develop and operate high-occupancy toll (HOT) lanes, including administration and operation of a value pricing program and exclusive or preferential lane facilities for public transit. Current law authorizes a value pricing and transit program involving HOT lanes to be developed and operated on State Highway Route 15 in the County of Riverside by the Riverside County Transportation Commission. Current law requires the Department of Transportation to report to the transportation policy committees of the Legislature, on or before January 1, 2020, on the feasibility and appropriateness of limiting the

use of high-occupancy vehicle lanes to high-occupancy vehicles and eligible vehicles, as defined, only during the hours of heavy commuter traffic on both State Route 91 between Interstate 15 and Interstate 215 in the County of Riverside, and State Route 60 in the County of Riverside. Separate from that report, this bill would require the Transportation Agency, on or before January 1, 2025, to report to the transportation policy committees of the Legislature on that same topic and on the feasibility and appropriateness of removing from high-occupancy vehicle lanes in the County of Riverside, except for certain high-occupancy toll lanes, any double parallel solid lines to restrict the entrance into or exit from those lanes, including the use of the appropriate markings and signage.

Would require that any electric vehicle service equipment that is capable of charging a light-duty electric vehicle and is installed or substantially retrofitted, as defined, except for private use at a single-family residence or multifamily residence, include a universal connector, as defined, and be publicly accessible. The bill would require an owner or operator of CHAdeMO electric vehicle service equipment, as defined, that is in operation on January 1, 2024, except where it is located at a single-family residence or multifamily residence and is only for private use, to maintain the CHAdeMO electric vehicle service equipment in good working condition until at least January 1, 2029.

Current law establishes the State Air Resources Board as the state agency responsible for monitoring and regulating sources emitting greenhouse gases. The state board, in this capacity, administers the California Hybrid and Zero-Emission Truck and Bus Voucher Incentive Project under which the agency issues a limited number of vouchers to incentivize the purchase and use of zero-emission commercial vehicles. The Budget Act of 2023 appropriated funds from the Greenhouse Gas Reduction Fund to the state board for zero-emission drayage trucks to be administered through the project and, in expending those funds, requires the state board, before January 1, 2025, to limit the number and award amount levels under the project based on fleet size. This bill would require the state board to ensure that a voucher provided under the project for the purchase of a new, or the retrofit of a used, drayage truck is provided to an operator in an amount determined pursuant to a sliding scale established by the state board, based on the number of drayage trucks the operator owns. In administering the project, the bill would require the state board to prioritize the award of those vouchers to operators meeting certain criteria.

Current law authorizes the legislative body of a city or a county to designate a proposed enhanced infrastructure financing district by adopting a resolution of intention to establish the proposed district which, among other things, is required to state that an enhanced infrastructure financing district is proposed and describe the boundaries of the proposed district. Current law requires the public financing authority to direct the preparation of and adopt an infrastructure financing plan consistent with the general plan and any relevant specific plan, and consisting of, among other things, a financing section. Current law requires that the financing section include a plan for financing the public facilities, a limit on the total number of dollars of taxes that may be allocated to the district pursuant to the plan, and a date, either not more than 45 years from the date on which the issuance of the bonds is approved for the plan on

which the district will cease to exist, by which time all tax allocation to the district will end, or, where the district is divided into project areas, a date on which the infrastructure financing plan will cease to be in effect and all tax allocations to the district will end and a date on which the district's authority to repay indebtedness with incremental tax revenues will end, as specified. This bill, for plans proposed on or after January 1, 2025, would specify that for the purpose of development and construction of passenger rail projects in the County of Los Angeles where at least 75% of the revenue from the district is used for debt service on a federal Transportation Infrastructure Finance and Innovation Act (TIFIA) loan, the date on which the district will cease to exist shall not be more than 75 years from the date of the approval of a TIFIA loan, as specified.

The Ralph M. Brown Act, requires, with specified exceptions, each legislative body of a local agency to provide notice of the time and place for its regular meetings and an agenda containing a brief general description of each item of business to be transacted. Current law authorizes the legislative body of a local agency to use alternate teleconferencing provisions during a proclaimed state of emergency (emergency provisions) and, until January 1, 2026, in certain circumstances related to the particular member if at least a quorum of its members participate from a singular physical location that is open to the public and situated within the agency's jurisdiction and other requirements are met (nonemergency provisions). Current law imposes different requirements for notice, agenda, and public participation, as prescribed, when a legislative body is using alternate teleconferencing provisions. The nonemergency provisions impose restrictions on remote participation by a member of the legislative body and require the legislative body to provide specific means by which the public may remotely hear and visually observe the meeting. This bill, until January 1, 2026, would authorize a subsidiary body, as defined, to use similar alternative teleconferencing provisions and would impose requirements for notice, agenda, and public participation, as prescribed. The bill would require at least one staff member of the local agency to be present at a designated primary physical meeting location during the meeting. The bill would require the local agency to post the agenda at the primary physical meeting location. The bill would require the members of the subsidiary body to visibly appear on camera during the open portion of a meeting that is publicly accessible via the internet or other online platform, as specified. The bill would also require the subsidiary body to list a member of the subsidiary body who participates in a teleconference meeting from a remote location in the minutes of the meeting. In order to use teleconferencing pursuant to this act, the bill would require the legislative body that established the subsidiary body by charter, ordinance, resolution, or other formal action to make specified findings by majority vote, before the subsidiary body uses teleconferencing for the first time and every 12 months thereafter.

Current law requires the State Air Resources Board to prepare, and to update at least once every 5 years, a statewide strategy to reduce emissions of toxic air contaminants and criteria air pollutants in communities affected by a high cumulative exposure burden. Current law requires the state board to include in the statewide strategy, among other components, an assessment and identification of communities with high cumulative exposure burdens for toxic air contaminants and criteria air pollutants, prioritizing disadvantaged communities and sensitive receptor locations based on specified factors. Current law requires the state board, based on the assessment and identification of communities with high cumulative exposure burdens, to select locations around the state for preparation of community emissions reduction programs. Current law requires an air district encompassing any location selected by the state board to adopt, in consultation with the state board, within one year of the state board's selection, a

community emissions reduction program to achieve emissions reductions for the location selected using cost-effective measures, as specified. Current law also requires an air district to submit the community emissions reduction program to the state board for review and approval as prescribed. Current law requires the air district and the state board to implement and enforce the measures in the community emissions reduction program consistent with their respective authority. This bill would additionally require the air district, in adopting a community emissions reduction program, to consult with other relevant state agencies. By imposing additional duties on air districts, this bill would impose a state-mandated local program.

The California Endangered Species Act requires the Fish and Game Commission (commission) to establish a list of endangered species and a list of threatened species and to add or remove species from either list if it finds, upon the receipt of sufficient scientific information, as specified, that the action is warranted. The act prohibits the taking of an endangered or threatened species, except in certain situations. Under the act, the Department of Fish and Wildlife may authorize the taking of listed species pursuant to an incidental take permit if the taking is incidental to an otherwise lawful activity, the impacts are minimized and fully mitigated, and the issuance of the permit would not jeopardize the continued existence of the species. A violation of the provisions of the Fish and Game Code is a crime. This bill, the Western Joshua Tree Conservation Act, would prohibit any person or public agency from importing into the state, exporting out of the state, or taking, possessing, purchasing, or selling within the state, a western Joshua tree or any part or product of the tree, except as provided pursuant to existing law or by paying a specified fee.

Current law, until January 1, 2031, for purposes of the exercise of a power of sale, prohibits a trustee from bundling properties for the purpose of sale, instead requiring each property to be bid on separately, unless the deed of trust or mortgage provides otherwise. Current law also prohibits specified institutions that, during their immediately preceding annual reporting period, as established with their primary regulator, foreclosed on 175 or more residential real properties, containing no more than 4 dwelling units, from conducting a sale of 2 or more parcels of real property containing one to 4 residential dwelling units, inclusive, at least 2 of which have been acquired through foreclosure under a mortgage or deed of trust. This bill would prohibit a developer of residential one to 4 dwelling units, inclusive, from conducting a sale of 2 or more parcels of real property containing one to 4 residential dwelling

units, inclusive, in a single transaction to an institutional investor, as defined, if the occupancy permit was issued on or after January 1, 2025.

Current law requires specified designated transportation planning agencies to prepare and adopt a regional transportation plan directed at achieving a coordinated and balanced regional transportation system, as described. Current law requires the plan to include specified information, including a sustainable communities strategy prepared by each metropolitan planning organization, and requires each transportation planning agency to adopt and submit, every 4 years, an updated plan to the California Transportation Commission and the Department of Transportation. Current law requires the sustainable communities strategy to include specified information, including an identification of areas within the region sufficient to house all the population of the region over the course of the planning period of the regional transportation plan, as specified, and an identification of areas within the region sufficient to house an 8-year projection of the regional housing need for the region, as specified. This bill would additionally require each metropolitan planning organization to include in the sustainable communities strategy the total number of new housing units necessary to house all the population of the region over the course of the planning period of the regional transportation plan, as specified, and the total number of new housing units necessary to house the above-described 8-year projection, as specified.

Existing law, the Government Claims Act, generally requires the presentation of all claims for money or damages against local public entities and the state. Existing law provides for the presentation of a claim for which appropriations have been made, or for which state funds are available, under that act to the Controller, in the form and manner prescribed by the general rules and regulations adopted by the Department of General Services. Existing law, with specified exceptions, prohibits the Controller from drawing a warrant for any claim until it has been audited in conformity with law and the general rules and regulations adopted by the Department of General Services governing the presentation and audit of claims. This bill would authorize the Controller to conduct, unless prohibited by the provisions of a state ballot proposition passed by the electorate, financial and compliance audits as the Controller's office deems as necessary for purposes of ensuring that any expenditures, regardless of the source or fund from which the warrants for claims are drawn, are expended in a manner consistent with the law and the voters' intent. The bill would also authorize the Controller to conduct any audits necessary to carry out their constitutional and statutory duties and responsibilities under the law. The bill would require, if an audit is conducted as specified, the Controller to provide a report with specified information from these audits to the Legislature by June 30 following the completion of the audit and would require the Controller to allow all auditees in the report a reasonable period of time to review and comment on the section of the report relating to the auditee, as described. Current law authorizes the operation of an autonomous vehicle on public roads for testing purposes by a driver who possesses the proper class of license for the type of vehicle operated if specified requirements are satisfied. Current

law prohibits the operation of an autonomous vehicle on public roads until the manufacturer submits an application to the Department of Motor Vehicles, as specified, and that application is approved. Current law requires the department to adopt regulations setting forth requirements for the submission and approval of an application, including, among other things, any testing, equipment, and performance standards the department concludes are necessary to ensure the safe operation of autonomous vehicles on public roads, as specified. This bill would require, if an autonomous vehicle does not have a person in the driver's seat and commits a violation of the Vehicle Code, or has a person in the driver's seat but commits the violation while the autonomous technology is engaged, the manufacturer to be cited for the violation. If an autonomous vehicle has a person in the driver's seat and commits a violation of the Vehicle Code while the autonomous technology is not engaged, the bill would require the driver to be cited for the violation. The bill would require manufacturers of fully autonomous vehicles, by July 1, 2026, to comply with certain requirements, including, among other things, to maintain a dedicated emergency response telephone line that is available for emergency response officials, as defined, and to equip each autonomous vehicle with a 2-way voice communication device that enables emergency response officials that are near the vehicle to communicate effectively with a remote human operator, as specified.

Current law, commonly referred to as the Housing Element Law, prescribes requirements for a city's or county's preparation of, and compliance with, its housing element, and requires the Department of Housing and Community Development to review and determine whether the housing element substantially complies with the Housing Element Law, as specified. Current law, the Housing Accountability Act, among other things, prohibits a local agency from disapproving, or conditioning approval in a manner that renders infeasible, a housing development project for very low, low-, or moderate-income households unless the local agency makes written findings as to one of certain sets of conditions, as specified. Current law defines "housing for very low, low-, or moderate-income households" for purposes of the Housing Accountability Act to mean at least 20% of the total units shall be sold or rented to lower income households or 100% of the units are sold or rented to persons and families of moderate income. This bill would revise that definition to mean at least 10% of the units are dedicated to very low income households, 100% of the units are dedicated to lower income households at an affordable rent consistent with rent limits established by the California Tax Credit Allocation Committee, 100% of the units are sold or rented to persons and families of moderate income, or the housing development consists of 10 units or fewer that is on a project site that is smaller than one acre with a minimum density of 10 units per acre.

Current law authorizes a transit bus in the Santa Cruz Metropolitan Transit District and the Santa Clara Valley Transportation Authority to be equipped with a yield right-of-way sign on the left rear of the bus if the applicable entity approves a resolution requesting that this section be made applicable to it. Current law requires the sign to be designed to warn a person operating a motor vehicle approaching the rear of the bus that the bus is entering traffic and be illuminated by a red flashing light when the bus is signaling in preparation for entering a traffic lane after having stopped to receive or discharge passengers. This bill would expand the authorization to equip transit buses, as described above, to apply to any transit agency if the transit agency approves a resolution that this authorization be made applicable to it.

Current law establishes a pilot program to allow the Counties of Alameda, Los Angeles, Monterey, Riverside, San Bernardino, San Diego, San Mateo, Santa Clara, Solano, and Yuba to select a bidder on the basis of best value, as defined, for construction projects in excess of \$1,000,000. Current law also authorizes these counties to use a best value construction contracting method to award individual annual contracts, not to exceed \$3,000,000, for repair, remodeling, or other repetitive work to be done according to unit prices, as specified. Current law establishes procedures and criteria for the selection of a best value contractor and requires that bidders verify specified information under oath. Current law requires the board of supervisors of a participating county to submit a report that contains specified information about the projects awarded using the best value procedures described above to the appropriate policy committees of the Legislature and the Joint Legislative Budget Committee before March 1, 2024. Current law repeals the pilot program provisions on January 1, 2025. This bill would instead authorize any county of the state to utilize this program and would extend the operation of those provisions until January 1, 2030. The bill would instead require the board of supervisors of a participating county to submit the report described above to the appropriate policy committees of the Legislature and the Joint Legislative Budget Committee before March 1, 2029.

The Housing Element Law prescribes requirements for a city's or county's preparation of, and compliance with, its housing element, and requires the Department of Housing and Community Development to review and determine whether the housing element substantially complies with the Housing Element Law, as specified. Current law requires the housing element to include an inventory of land suitable and available for residential development. If that inventory of sites does not identify adequate sites to accommodate the need for groups of all household income levels, as provided, current law requires that the local government rezone sites within 3 years after the date the housing element is adopted or within one year if the local government fails to adopt a housing element that the department finds to be in substantial compliance with the Housing Element Law within 120 days of the statutory deadline to adopt the housing element. This bill, for the 7th and each subsequent revision of the housing element, would require a local government to complete the rezoning of sites within one year of the statutory deadline for the adoption of the housing element or the earlier of 3 years after the date the housing element is adopted or 90 days after receipt of comments from the department, as specified, if the local government satisfies certain requirements, including submitting a draft element or draft amendment to the department for review within specified timeframes and adopting a draft element or draft amendment that the department finds to be insubstantial compliance with the Housing Element Law, as specified.

The Ralph M. Brown Act generally requires for teleconferencing that the legislative body of a local agency that elects to use teleconferencing post agendas at all teleconference locations, identify each teleconference location in the notice and agenda of the meeting or proceeding, and have each teleconference location be accessible to the public. Current law also requires that, during the teleconference, at least a quorum of the members of the legislative body participate from locations within the boundaries of the territory over which the local agency exercises jurisdiction. The act provides an exemption to the jurisdictional requirement for health authorities, as defined.

Current law, until January 1, 2026, authorizes the legislative body of a local agency to use alternative teleconferencing in specified circumstances if, during the teleconference meeting, at least a quorum of the members of the legislative body participates in person from a singular physical location clearly identified on the agenda that is open to the public and situated within the boundaries of the territory over which the local agency exercises jurisdiction, and the legislative body complies with prescribed requirements. Current law imposes prescribed restrictions on remote participation by a member under these alternative teleconferencing provisions, including establishing limits on the number of meetings a member may participate in solely by teleconference from a remote location, prohibiting such participation for a period of more than 3 consecutive months or 20% of the regular meetings for the local agency within a calendar year, or more than 2 meetings if the legislative body regularly meets fewer than 10 times per calendar year. This bill would revise those limits, instead prohibiting such participation for more than a specified number of meetings per year, based on how frequently the legislative body regularly meets.

Existing sales and use tax laws impose taxes on retailers measured by the gross receipts from the sale of tangible personal property sold at retail in this state, or on the storage, use, or other consumption in this state of tangible personal property purchased from a retailer for storage, use, or other consumption in this state. The California Alternative Energy and Advanced Transportation Financing Authority Act establishes the California Alternative Energy and Advanced Transportation Financing Authority. The act authorizes, until January 1, 2026, the authority to provide financial assistance to a participating party in the form of specified sales and use tax exclusions for projects, including those that promote California-based manufacturing, California-based jobs, advanced manufacturing, reduction of greenhouse gases, or reduction in air and water pollution or energy consumption. The act prohibits the sales and use tax exclusions from exceeding \$100,000,000 for each calendar year, except as provided. The Sales and Use Tax Law, for the purposes of the taxes imposed pursuant to that law, until January 1, 2026, excludes the lease or transfer of title of tangible personal property constituting a project to any contractor for use in the performance of a construction contract for a participating party that will use that property as an integral part of the approved project. This bill would extend the authorization to provide financial assistance in the form of a sales and use tax exclusion for qualifying projects to January 1, 2031, and would extend the sales and use tax exclusion to January 1, 2031. Current law requires agencies and departments administering state programs related to homelessness to adopt guidelines and regulations to incorporate core components of Housing First, as defined. Under current law, Housing First includes time-limited rental or services assistance, so long as the housing and service provider assists the recipient, among other things, in accessing permanent housing. Current law defines "state programs" for this purpose as any program a California state agency or department funds, implements, or administers for the purpose of providing housing or housing-based services to people experiencing homelessness or at risk of homelessness, except as provided. Under existing law, the core components of Housing First include, among others, services that are informed by a harm-reduction philosophy that recognizes drug and alcohol use and addiction as a part of tenants' lives, where tenants are engaged in nonjudgmental communication regarding drug and alcohol use, and where tenants are offered education regarding how to avoid risky behaviors and engage in safer practices, as well as connected to evidence-based treatment if the tenant so chooses. This bill would clarify, pursuant to that core component, that state departments or agencies may allow programs to fund recovery housing, as defined, that use substance use-specific services, peer support, and physical design features supporting individuals and families on a path to recovery from addiction that emphasizes abstinence, so long as the state program meets specified requirements.

Current law requires the county treasurer to settle the county treasurer's accounts relating to the collection, care, and disbursement of public revenue with the auditor no less frequently than monthly. Current law additionally requires the county treasurer, upon the request of the auditor, to provide a settlement of cash receipts and disbursements of the prior calendar month to the auditor on or before 10 business days after the treasurer receives the auditor's request. This bill would instead require the treasurer, upon the request of the auditor, to provide a settlement of cash receipts and disbursements of the prior calendar month to the auditor on or before 12 business days after the treasurer receives the auditor's request.

The Planning and Zoning Law requires each county and city to adopt a comprehensive, long-term general plan for

the physical development of the county or city, which includes, among other mandatory elements, a housing element. That law requires, for the 4th and subsequent revisions of the housing element, the Department of Housing and Community Development (department) to determine the existing and projected need for housing for each region, as specified. That law requires the department, in consultation with the council of governments, to determine the existing and projected need of housing for each region in a specified manner. That law requires the department's determination to be based upon population projections produced by the Department of Finance, as specified. That law also requires the department to meet and consult with the council of governments regarding the assumptions and methodologies to be used to determine each region's housing need and requires the council of governments to provide data assumptions from the council of governments' projections, as specified. That law authorizes the department to accept or reject the information provided by the council of governments and, after consultation with each council of governments, to make determinations on the council of governments' data assumptions and the methodology the department will use to determine each region's housing need. That law requires the department to provide its determinations to each council of governments, as specified. This bill would require the department to publish on its internet website the data sources, analyses, and methodology, as specified, prior to finalization of the regional determination.

Existing law, the California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. CEQA also requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. This bill would expand that exemption from CEQA to include a public project for the institution or increase of other passenger rail service, which will be exclusively used by zero-emission electrified trains, on existing rail rights-of-way or existing highway rights-of-way. Because the bill would increase the duties of the county clerk, this bill would impose a state-mandated local program.

The California Environmental Quality Act (CEQA) exempts from its requirements residential projects on infill sites and transit priority projects that meet certain requirements, including a requirement that the projects are located within 1/2 mile of a major transit stop. CEQA defines "major transit stop" to include, among other locations, the intersection of 2 or more major bus routes with a frequency of service interval of 15 minutes or less during the morning and afternoon peak commute periods. Current law sets forth various general powers of the department in implementing these programs, including authorizing the department to enter into long-term contracts or agreements of up to 30 years for the purpose of

servicing loans or grants or enforcing regulatory agreements or other security documents. Unless an extension of a department loan, the reinstatement of a qualifying unpaid matured loan, the subordination of a department loan to new debt, or an investment of tax credit equity would result in a rent increase for tenants of a development, authorizes the Department of Housing and Community Development to approve an extension, reinstatement, subordination, payoff, extraction, or investment pursuant to specified rental housing finance programs, as specified, or if the department determines that a project has, or will have after rehabilitation or repairs, a potential remaining useful life equal to or greater than the term of the restructured loan. Current law authorizes the department to charge a monitoring fee to cover the aggregate monitoring costs in years the loan is extended and a transaction fee to cover its costs for processing restructuring transactions, and requires developer fee limitations to be consistent with specified laws and regulations, including regulations by the California Tax Credit Allocation Committee. Current law prohibits a transportation agency, as defined, from selling or otherwise providing to any other person or entity, with certain exceptions, personally identifiable information of a person who subscribes to an electronic toll collection system or who uses a toll bridge, toll lane, or toll highway that employs an electronic toll collection system. Under current law, a transportation agency is authorized to make personally identifiable information of a person available to a law enforcement agency only pursuant to a search warrant, except under certain circumstances. Current law defines “personally identifiable information” for these purposes and provides that it includes, among other things, a license plate number. Current law authorizes a law enforcement agency to request the Department of the California Highway Patrol (CHP) to activate the Emergency Alert System within the appropriate area if that agency determines that a child 17 years of age or younger, or an individual with a proven mental or physical disability, has been abducted and is in imminent danger of serious bodily injury or death, and there is information available that, if disseminated to the general public, could assist in the safe recovery of that person. Current law also authorizes the CHP, upon the request of a law enforcement agency, to activate various other alerts for missing individuals meeting certain criteria and alerts following an attack upon a law enforcement officer or a hit-and-run fatality. This bill, if the CHP activates one of the above-mentioned alerts and that alert contains a license plate number of a vehicle involved in the incident, would require a transportation agency that employs an electronic toll collection system to notify the CHP and the law enforcement agency that requested the alert upon identifying that vehicle with that license plate number using a camera-based vehicle identification system or other electronic medium employed in connection with the electronic toll collection system.

The Mitigation Fee Act, among other things, imposes various requirements with respect to the establishment, increase, or imposition of a fee by a local agency as a condition of approval of a development project, including requiring the local agency to identify the use to which the fee is to be put, as specified. The act requires a local agency, upon receipt of a fee subject to these provisions, to deposit, invest, account for, and expend the fees as specified. For the 5th fiscal year following the first deposit into the account of fund, and every 5 years thereafter, the act requires the local agency to make prescribed findings with respect to that portion of the account or fund remaining unexpended, whether committed or uncommitted, including demonstrating a reasonable relationship between the fee and the purpose for which it is charged. The Planning and Zoning Law, among other things, authorizes the legislative body of a county or city to adopt ordinances to require, as a condition of development of residential rental units, that the development include a certain percentage of residential rental units affordable to, and occupied by, moderate-income, lower income, very low income, or extremely low income households or by persons and families of low or moderate income, as specified. Existing law establishes a process for the Department of Housing and Community Development to review certain types of these ordinances, subject to specified standards and procedures. This bill, commencing on January 1, 2026, would require a local agency that collects inclusionary housing in-lieu fees to annually post on its internet website the amount of those fees collected in the previous year and whether those fees are intended to be used for a project, if any.

Current law defines “affirmatively furthering fair housing” as taking meaningful actions that, taken together, address significant disparities in housing needs and in access to opportunity, replacing segregated living patterns with truly integrated and balanced living patterns, transforming racially and ethnically concentrated areas of poverty into areas of opportunity, and fostering and maintaining compliance with civil rights and fair housing laws. Current law requires a housing element to include a program that sets forth a schedule of actions during the planning period, each with a timeline for implementation such that there will be beneficial impacts of the programs within the planning period, that the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element through, among other things, the administration of land use and development controls and the provision of regulatory concessions and incentives. Current law requires this program to affirmatively further fair housing and consist of specified components, including a summary of fair housing issues in the jurisdiction and an assessment of the jurisdiction’s fair housing enforcement and fair housing outreach capacity. This bill would require the Department of Housing and Community Development to develop a standardized reporting format for programs and actions taken with regards to the local agency affirmatively further fair housing that enables the reporting of the assessment components described-above, as specified. The bill would require local governments to utilize the standardized reporting format for the 7th and each subsequent revision of the housing element.

Current state law authorizes the Department of Transportation to designate certain lanes for the exclusive use of high-occupancy vehicles (HOVs). Current federal law authorizes, until September 30, 2025, a state to allow specified alternate fuel and plug-in electric or hybrid vehicles to use lanes designated for HOVs. Current state law authorizes the Department of Motor Vehicles to issue decals or other identifiers to qualified vehicles, as specified. Current state law allows a vehicle displaying a valid decal or identifier issued pursuant to these provisions to be operated in a lane designated for the exclusive use of HOVs regardless of the occupancy of the vehicle. These existing state laws, by operation of their provisions, become inoperative on the date the federal authorization expires. Current state law also repeals these provisions on September 30, 2025. Current law prohibits a public agency from imposing any minimum automobile parking requirement on any residential, commercial, or other development project that is located within 1/2 mile of public transit, as defined, unless the public agency makes written findings that not imposing or enforcing minimum automobile parking requirements on the development would have a substantially negative impact on, among other things, the city's, county's, or city and county's ability to meet its share of the regional housing need for low- and very low income

households. This bill would, for purposes of its provisions, define “development project” to mean a residential, commercial, or other development project exempt from minimum automobile parking requirements, or subject to parking minimum reductions based on any other applicable law, located within the boundaries of the City of Los Angeles. This bill, for a development project that is located within a preferential parking area, would require the development project to be excluded from the boundaries of the preferential parking area and would prohibit the local authority, as defined, from issuing any permit to the residents, vendors, or visitors of the development project that grants preferential parking privileges. However, the bill would also authorize a local authority to issue permits to residents of the development project that is within the boundaries of a preferential parking area if the issuing the permit does not cause overcrowding in the preferential parking area for existing residents. The bill would also provide that none of the above-described provisions prohibit local authorities from issuing permits to residents of developments projects that occupy deed-restricted units intended for specified households.

Current law generally regulates classes of insurance, including automobile liability insurance. Current law prohibits classifying a private passenger motor vehicle as a commercial vehicle, for-hire vehicle, permissive use vehicle, or livery solely because its owner allows it to be shared, if specified criteria are met, including if the annual revenue received by the vehicle's owner generated by the personal vehicle sharing of the vehicle does not exceed the annual expenses of owning and operating the vehicle. Current law requires a personal vehicle sharing program, for each vehicle that it facilitates the use of, among other things, to provide insurance coverages for the vehicle and operator of the vehicle that are equal to or greater than the insurance coverages maintained by the vehicle owner, but no less than 3 times the minimum coverage amounts for private passenger vehicles. Current law requires an owner or operator of a motor vehicle, or an owner of a vehicle used to transport passengers for hire not regulated by the Public Utilities Commission, to maintain liability insurance coverage for the named insured and any other person using the vehicle with permission in the amount of \$15,000 for the bodily injury or death of any one person, \$30,000 for the bodily injury or death of all persons, and \$5,000 for damage to the property of others resulting from any one accident. Current law increases these minimum amounts to \$30,000, \$60,000, and \$15,000, respectively, on January 1, 2025. This bill would require a personal vehicle sharing program to provide, instead, insurance coverages for the vehicle and operator at a minimum of \$45,000 for bodily injury or death for one person, \$90,000 for bodily injury or death for all persons, and \$15,000 for property damage, and, on and after January 1, 2035, to provide liability coverage at least 3 times the minimum insurance requirements for private passenger vehicles. The California Community Care Facilities Act requires the State Department of Social Services to license and regulate transitional housing placement providers pursuant to the act. Under current law, a transitional housing placement provider is an organization licensed by the department to provide transitional housing to foster children at least 16 years of age and not more than 18 years of age and to nonminor dependents to promote their transition to adulthood. Current law requires a transitional housing unit to include, among other things, a host family certified by a transitional housing placement provider or other designated entity, as prescribed. Current law requires the

department to adopt regulations governing transitional housing placement living arrangements requirements for minors and nonminor dependents, as prescribed. This bill would require those regulations to include allowing a minor or nonminor dependent participant to share a bedroom or unit in a transitional housing placement with a nonparticipant roommate, sibling, or coparent, as specified. The bill would also require the regulations to allow a minor or nonminor dependent with children to share their living arrangement with a coparent or participant sibling. The bill would require the regulations to require counties and program contracts to allow individual program participants and individuals sharing their living arrangements to share bedrooms, bathrooms, and units together, regardless of gender identity and would require county program contracts to allow providers and participants to make best matches to allow for gender flexibility.

Current law requires a civil action against a museum, gallery, auctioneer, or dealer for the recovery of works of fine art that were unlawfully taken or stolen, including a taking or theft by means of fraud or duress, to be commenced within 6 years of the actual discovery by the claimant or their agent of the identity and whereabouts of the work of fine art and information or facts that are sufficient to indicate that the claimant has a claim for a possessory interest in the work of fine art. Current federal law, the Holocaust Expropriated Art Recovery Act of 2016, establishes a statute of limitation for claims to recover artwork and other property, as defined, stolen or misappropriated by the Nazis between 1933 and 1945. This bill would provide that California substantive law shall apply in actions to recover fine art or an item of historical, interpretive, scientific, or artistic significance, including those covered by the Holocaust Expropriated Art Recovery Act of 2016, brought by a California resident or their heirs, as specified.

Current law requires the Department of Justice to investigate any violations of, and to enforce, the Gambling Control Act. Current law prohibits a court from issuing a temporary injunction or other provisional order to restrain, stay, or otherwise interfere with any action by the department or the California Gambling Control Commission, except upon a finding by the court, based on clear and convincing evidence, that the public interest will not be prejudiced. Current law prohibits an order from being effective for more than 15 days and a preliminary order from being effective for more than 45 days, except by stipulation of the department or commission. This bill would extend the period an order may be effective to 21 days and extend the period a preliminary order may be effective to 60 days.

Current law establishes the Public Employment Relations Board (PERB). Under current law, PERB has the power and duty to investigate an unfair practice charge and to determine whether the charge is justified and the appropriate remedy for the unfair practice. The Meyers-Milias-Brown Act regulates the labor relations of employees and employers of local public agencies. The act requires that a complaint alleging any violation of the act or of any rules and regulations adopted by a public agency pursuant to specified law be processed as an unfair practice charge by PERB. The act provides that the initial determination as to whether the charge of unfair practice is justified and, if so, the appropriate remedy necessary to effectuate the purposes of the act is a matter within the exclusive jurisdiction of PERB, except that in an action to recover damages due to an unlawful strike, PERB does not have authority to award strike-preparation expenses as damages and does not have authority to award damages for costs, expenses, or revenue losses incurred during, or as a consequence of, an unlawful strike. Current law, notwithstanding PERB's authority, grants the employee relations commissions for the City of Los Angeles and the County of Los Angeles the power and responsibility to take actions on all unfair practices, as specified. This bill would prohibit, in an action to recover damages due to an unlawful strike, the City of Los Angeles Employee Relations Board and the Los Angeles County Employee Relations Commission from awarding strike-preparation expenses as damages and awarding damages for costs, expenses, or revenue losses incurred during, or as a consequence of, an unlawful strike.

Current law requires the owner of qualifying residential property, as defined, that provides parking with the qualifying residential property to unbundle parking from the price of rent, as specified. Current law defines "unbundled parking" as the practice of selling or leasing parking spaces separate from the lease of the residential use. Current federal law provides housing assistance to low-income individuals and households in the form of vouchers, commonly known as Housing Choice Vouchers. This bill would exempt any residential unit that is leased to a tenant who receives a federal Housing Choice Voucher, including a federal Veterans Affairs Supportive Housing voucher, from the above-described requirement to unbundle parking.

Under current law, the State Department of Public Health adopted regulations that establish minimum, specific, and numerical licensed nurse-to-patient ratios by licensed nurse classification and by hospital unit within a general acute care hospital, among other health facilities. Current regulations require licensed nurse-to-patient ratios to represent the maximum number of patients assigned to one licensed nurse at any one time, and define "assigned" to mean the licensed nurse has responsibility for the provision of care to a particular patient within their scope of practice. This bill would require the department, when transmitting to a general acute care hospital the action to be taken on a substantiated violation of the regulation establishing licensed nurse-to-patient ratios, to simultaneously transmit the same information to the person who filed the claim of the violation and their collective bargaining agent or representative, if any. The bill would further require the department, if the action to be taken does not include a fine, to simultaneously transmit a statement of the reasoning for not imposing a fine to the person who filed the claim of the violation and their collective bargaining agent or representative, if any.

Current law requires a state agency or department that administers one or more state homelessness programs, upon request of the California Interagency Council on Homelessness, to participate in council activities, as specified, and to provide to the council any relevant information regarding those state homelessness programs. This bill would require, commencing June 1, 2025, a state agency or department that administers one or more state homelessness programs to report annually to the council cost and outcome data for each program the agency or department administers, and would require the council to develop uniform data collection and reporting procedures for this purpose. The bill would require the council to compile the data reported by agencies and departments and, commencing September 1, 2025, annually make that data available to the public.

Current law authorizes an owner of any qualified historical property to contract with the legislative body of a city, county, or city and county to restrict the use of the property, as specified, in exchange for lowered assessment values. Current law defines "qualified historical property" as privately owned property that is not exempt from property taxation and is either listed in the National Register of Historic Places or located in a registered historic district, as defined, or listed in any state, city, county, or city and county official register of historical or architecturally significant sites, places, or landmarks. Current law establishes the Infill Infrastructure Grant Program of 2019, which requires the Department of Housing and Community Development to establish and administer a grant program to fund capital improvement projects pursuant to specified requirements. Current law provides that capital improvement projects that may be funded under the grant program include, among other things, those related to adapted reuse, which means, when referring to building structures, retrofitting and repurposing of existing buildings that create new residential rental units, as specified. This bill, starting January 1, 2026, and until January 1, 2036, would additionally define as "qualified historical property" a privately owned property that is not exempt from property taxation that was constructed at least 30 years prior to the year a legislative body and property owner enter into a contract to restrict the use of the property, as specified, and that is located within the City of Los Angeles on a site that satisfies certain criteria, including, among others, being in a zone where office, retail, or parking are a principally permitted use.

The California Building Standards Law establishes the California Building Standards Commission within the Department of General Services. Current law requires the commission to approve and adopt building standards and to codify those standards in the California Building Standards Code, which is required to be published once every 3 years. The State Housing Law establishes statewide construction and occupancy standards for buildings used for human habitation. That law requires the building department of every city or county to enforce within its jurisdiction

the provisions of the California Building Standards Code, the provisions of the State Housing Law, and specified other rules and regulations promulgated pursuant to that law. That law authorizes a city or county to adopt alternative building regulations for the conversion of commercial or industrial buildings to joint living and work quarters, as specified. The Political Reform Act of 1974 prohibits an officer of an agency from accepting, soliciting, or directing a contribution of more than \$250 from any party, participant, or a party or participant's agent, while a proceeding involving a license, permit, or other entitlement for use is pending before the agency and for 12 months following the date a final decision is rendered in the proceeding, if the officer knows or has reason to know that the participant has a financial interest, as defined. Current law permits an officer who violates this prohibition to cure the violation by returning the contribution, or portion of the contribution in excess of \$250, within 14 days of accepting, soliciting, or directing the contribution, as specified. Current law also prohibits a party or party's agent from making a contribution of more than \$250 to any officer of an agency while a proceeding involving a license, permit, or other entitlement for use is pending before the agency and for 12 months following the date a final decision is rendered by the agency in that proceeding. The Planning and Zoning Law requires an owner of an assisted housing development proposing the termination of a subsidy contract or prepayment of governmental assistance or of an assisted housing development in which there will be the expiration of rental restrictions to provide a notice of the proposed change to each affected tenant household residing in the assisted housing development, as specified. The Planning and Zoning Law defines "assisted housing development" for these purposes to mean a multifamily rental housing development of 5 or more units that receives governmental assistance under any of specified programs, including assistance provided by counties or cities under specified law in exchange for restrictions on the maximum rents, as specified, and on the maximum tenant income, as specified. The Planning and Zoning law defines a "termination" for these purposes to mean an owner's decision to extend or renew its participation in a federal, state, or local government subsidy program or private, nongovernmental subsidy program for an assisted housing development, as specified. The Planning and Zoning Law defines the "expiration of rental restrictions" for these purposes to mean the expiration of rental restrictions for an assisted housing development, as specified, unless the development has other recorded agreements restricting the rent to the same or lesser levels for at least 50% of the units. This bill would instead impose the above-described notice requirement on an owner prior to the anticipated date of termination of a subsidy contract or expiration of rental restrictions or prepayment on an assisted housing development, as specified. The bill would expand the definition of "assisted housing development" to include a development that receives assistance from counties or cities in exchange for affordability restrictions, as described above, pursuant to the Middle Class Housing Act of 2022; streamlining assistance pursuant to the Affordable Housing and High Road Jobs Act of 2022; specified law providing a streamlined, ministerial approval process for certain housing developments; or the Affordable Housing on Faith and Higher Education Lands Act of 2023.

Current law creates the Los Angeles County Metropolitan Transportation Authority (MTA), governed by a 14-member board, with specified powers and duties relative to transportation planning, programming, and operations in the County of Los Angeles. Current law prescribes a code of conduct for the board of MTA, which includes, among other things, rules pertaining to gifts and financial conflicts of interest. As part of the provisions establishing this code of conduct, current law requires the board of MTA to appoint an ethics officer who reports to the board. Current law also requires MTA to appoint an inspector general and requires the code of conduct to be enforced by the inspector general. The Mitigation Fee Act imposes various requirements with respect to the establishment, increase, or imposition of a fee by a local agency as a condition of approval of a development project. Current law requires a local agency that imposes a fee on a housing development for the purpose of mitigating vehicular traffic impacts to set the rate for the fee to reflect a lower rate of automobile trip generation if the housing development satisfies specified characteristics, including that the housing development is located within 1/2 mile of a transit station. Current law defines transit station for these purposes to mean a rail or light-rail station, ferry terminal, bus hub, or bus transfer station. This bill would instead require the housing development to be located within 1/2 mile of a transit priority area for purposes of a local agency setting the rate for a mitigating vehicular traffic impacts fee to reflect a lower rate of automobile trip generation.

The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of an environmental impact report (EIR) on a project that it proposes to carry out or approve that may have a significant effect on the environment or to adopt a negative declaration if it finds that the project will not have that effect. Current law, until January 1, 2030, exempts from CEQA a university housing development project carried out by a public university on real property owned by the public university if the project meets certain requirements, including that each building within the project is certified as Leadership in Energy and Environmental Design (LEED) Platinum or better by the United States Green Building Council. Existing law requires the lead agency, if the university housing development project is exempt from CEQA under the above provision, to file the LEED certificate for buildings within the project and a notice determining that the construction impacts of the project have been fully mitigated with the Office of Planning and Research and the county clerk of the county in which the project is located. Current law requires a university housing development project carried out by the University of California, in order to be exempt from CEQA under this law, to be consistent with the most recent long-range development plan EIR certified on or after January 1, 2018, as provided. This bill would extend the application of the university housing development project exemption until January 1, 2032. The bill would instead require a university housing development project carried out by the University of California, in order to be exempt from CEQA under this law, to be consistent with the land use designation in the most recent long-range development plan that has an EIR prepared for that plan, or an EIR prepared for any subsequent amendment to that plan relating to housing, that was certified not more than 25 years before the approval of the project.

Current law authorizes GO-Biz to undertake various activities relating to economic development, including the provision of prescribed information. Current law requires the Transportation Agency to prepare a state freight plan that provides a comprehensive plan to govern the immediate and long-range planning activities and capital investments of the state with respect to the movement of freight. This bill would authorize GO-Biz to serve as the coordinating entity to steer the growth, competitiveness, and sustainability for freight and the supply chain across the state and to promote and assess the continued economic vitality, economic competitiveness, and sustainability of the freight sector. The bill would also authorize GO-Biz to provide freight and supply chain economic competitiveness information.

Current law, until January 1, 2024, authorizes the legislative body of a local agency to use alternate teleconferencing provisions during a proclaimed state of emergency or in other situations related to public health that exempt a legislative body from the general requirements (emergency provisions) and impose different requirements for notice, agenda, and public participation, as prescribed. The emergency provisions specify that they do not require a legislative body to provide a physical location from which the public may attend or comment. Current law, until January 1, 2026, authorizes the legislative body of a local agency to use alternative teleconferencing in certain circumstances related to the particular member if at least a quorum of its members participate from a singular physical location that is open to the public and situated within the agency's jurisdiction and other requirements are met, including restrictions on remote participation by a member of the legislative body. These circumstances include if a member shows "just cause," including for a childcare or caregiving need of a relative that requires the member to participate remotely. This bill would expand the circumstances of "just cause" to apply to the situation in which an immunocompromised child, parent, grandparent, or other specified relative requires the member to participate remotely. The bill would authorize the legislative body of a multijurisdictional, cross-county agency, as specified, to use alternate teleconferencing provisions if the eligible legislative body has adopted an authorizing resolution, as specified. The bill would also require the legislative body to provide a record of attendance of the members of the legislative body, the number of community members in attendance in the teleconference meeting, and the number of public comments on its internet website within 10 days after a teleconference meeting, as specified. The bill would require at least a quorum of members of the legislative body to participate from one or more physical locations that are open to the public and within the boundaries of the territory over which the local agency exercises jurisdiction.

Current law requires the Office of Planning and Research to prepare, develop, and transmit to the Secretary of the Natural Resources Agency for certification and adoption proposed revisions to guidelines establishing criteria for determining the significance of transportation impacts of projects within transit priority areas to promote the reduction of greenhouse gas emissions, the development of multimodal transportation networks, and a diversity of land uses. Current law establishes the Transportation Agency in state government with various duties and responsibilities. The agency is under the supervision of the Secretary of Transportation, who has the power of general supervision over specified departments and offices, including the Department of Transportation. This bill would require the Transportation Agency, in consultation with local governments and other interested parties, as specified, by January 1, 2028, and subject to an appropriation by the Legislature for this purpose, to conduct and post on its internet website a study on how vehicle miles traveled is used as a metric for measuring transportation impacts pursuant to the California Environmental Quality Act (CEQA). The bill would require the study to include, among other things, an analysis of the differences in the availability and feasibility of mitigation measures for vehicle miles traveled in rural, suburban, and urban areas. Current law authorizes an autonomous vehicle, as defined, to be operated on public roads for testing purposes by a driver who possesses the proper class of license for the type of vehicle being operated if certain requirements are met, including that the vehicle is being operated solely by employees, contractors, or other persons designated by the manufacturer. Current law prohibits an autonomous vehicle from being operated on public roads until the manufacturer submits an application to the Department of Motor Vehicles containing certain certifications regarding safety and other technological requirements and the department approves that application pursuant to adopted regulations. Current law, commencing January 1, 2030, and to the extent authorized by federal law, prohibits the operation of certain new autonomous vehicles that are not zero-emission vehicles, as defined. This bill would authorize a city with a population of 250,000 or greater that an autonomous vehicle service, as defined, has received

authorization by the Department of Motor Vehicles, the Public Utilities Commission, or any other applicable state agency to operate, to protect the public health, safety, and welfare by enacting an ordinance in regard to autonomous vehicle services within that jurisdiction. The bill would require each city that enacts an ordinance to include certain provisions within that ordinance. These would include a policy for entry into the business of providing autonomous vehicle services including a permitting program that includes, among other things, the establishment of reasonable vehicle caps and hours of service restrictions. The bill would authorize a city with a population of less than 250,000 that shares a border or is contiguous to a city that has enacted an autonomous vehicle services ordinance to enact an ordinance substantially consistent with that autonomous vehicle services ordinance.

If the chairperson of the committee informs committee members of the chairperson's intention to waive the 60-day notification period, current law permits the chairperson to grant a waiver of that notification period after receipt of the notification if an objection is not received within 10 days. Current law requires, upon the request of the chairperson or any member of the committee, the committee to schedule a hearing on the proposed allocation formula to be established or changed. Current law establishes the Tri-Valley-San Joaquin Valley Regional Rail Authority for purposes of planning, developing, delivering, and operating cost-effective and responsive transit connectivity, between the Bay Area Rapid Transit District's rapid transit system and the Altamont Corridor Express commuter rail service. Current law gives the authority all of the powers necessary for planning, acquiring, leasing, developing, jointly developing, owning, controlling, using, jointly using, disposing of, designing, procuring, and constructing facilities to achieve transit connectivity, including, among other powers, the power to contract with public and private entities for the planning, design, and construction of the connection. Current law authorizes these contracts to be assigned separately or combined to include any or all tasks necessary to achieve transit connectivity. This bill would authorize the Tri-Valley-San Joaquin Valley Regional Rail Authority to use the Construction Manager/General Contractor project delivery method when contracting for the planning, design, and construction of the connection. The Motor Vehicle Fuel Tax Law, administered by the California Department of Tax and Fee Administration, imposes a tax upon each gallon of motor vehicle fuel removed from a refinery or terminal rack in this state, entered into this state, or sold in this state, at a specified rate per gallon. Current sales and use tax laws provide a partial exemption from the taxes imposed by those laws for motor vehicle fuel that is subject to the taxes imposed by the Motor Vehicle Fuel Tax Law. The Planning and Zoning Law requires every city, county, and city and county to administratively approve an application to install electric vehicle charging stations and hydrogen-fueling stations through the issuance of a building permit or similar nondiscretionary permit. Current law, the Planning and Zoning Law, requires each city, county, and city and county to adopt an ordinance that creates an expedited, streamlined permitting process for electric vehicle charging stations. Current law authorizes a city, county, or city and county developing an ordinance to refer to the recommendations contained in the most current version of the “Plug-In Electric Vehicle Infrastructure Permitting Checklist,” as specified. Current law requires a city, county, and city and county, in developing the expedited permitting process, to adopt a checklist of all requirements with which electric vehicle charging stations must comply to be eligible for expedited review. For these purposes, current law defines “hydrogen-fueling station” to mean the equipment used to store and dispense hydrogen fuel to vehicles according to industry codes and standards that is open to the public. Current law requires a hydrogen-fueling station to meet certain requirements, including any rules established by the State Air Resources Board, Energy Commission, or Department of Food and Agriculture regarding safety, reliability, weights, and measures. This bill would modify the definition of “hydrogen-fueling station” to mean the equipment and structural design components necessary to ensure the safety of the fueling station, including hydrogen-refueling canopies, that are used to store and dispense hydrogen fuel to vehicles according to industry codes and standards that are open to the public.

Current law requires the State Air Resources Board to adopt hydrogen fuel regulations that ensure state funding for the production and use of hydrogen fuel contributes to the reduction of the emissions of greenhouse gases, criteria air pollutants, and toxic air contaminants, and ensure the production and direct use of hydrogen fuel in motor vehicles also contributes to a reduced dependence on petroleum, as provided. This bill would require the state board to adopt regulations requiring that no less than 33.3% of the retail hydrogen produced for, or dispensed by, fueling stations that receive state funds is made by a qualified clean hydrogen project.

Current law requires every city, county, and city and county to administratively approve an application to install electric vehicle charging stations through the issuance of a building permit or similar nondiscretionary permit and requires the review of an application to install an electric vehicle charging station to be limited to the building official’s review of whether it meets all health and safety requirements of local, state, and federal law. Current law requires an electric vehicle charging station to comply with, among other things, all applicable rules of the Public Utilities Commission regarding safety and reliability, as specified. This bill would express the intent of the Legislature to enact subsequent legislation that would reduce state and local permitting barriers for electric vehicle charging.

The California Global Warming Solutions Act of 2006 requires the State Air Resources Board to adopt rules and regulations to achieve the maximum technologically feasible and cost-effective greenhouse gas emissions reductions to ensure that the statewide greenhouse gas emissions are reduced to at least 40% below the statewide greenhouse gas emissions limit, as defined, no later than December 31, 2030. Pursuant to the act, the state board has adopted the Low Carbon Fuel Standard regulations. The act authorizes the state board to include in its regulation of those

emissions the use of market-based compliance mechanisms. Current law requires all moneys, except for fines and penalties, collected by the state board from the auction or sale of allowances as part of a market-based compliance mechanism to be deposited in the Greenhouse Gas Reduction Fund. This bill would suspend the Low Carbon Fuel Standard regulations for one year. The bill would also exempt suppliers of transportation fuels from regulations for the use of market-based compliance mechanisms for one year.
